Index to Volume XXXV

September 1909 --- February 1910

A

Accidents, Prevention of, Industrial..... 212
Alaska-Yukon-Pacific Exposition, Foundry Equipment Exhibit 29
Albany Sand & Supply Co..... 235
Alloys, Aluminum-Zinc, Tensile Strength of 268
Alloys, Nickel, Methods of Melting..... 39
Aluminum Castings Co..... 44
Aluminum Castings, Molding Sand for.... 37
Aluminum Co. of America..... 234
Aluminum Foundries, Consolidation of... 44
Aluminum Flux 133
Aluminum, Plating of, A New Method... 34
Aluminum Solder, Hartman's..... 195
Aluminum-Zinc Alloys, Tensile Strength of 268
American Blower Co., Electrically-Driven Cupola Blower 140
American Society of Mechanical Engineers, Annual Meeting of 165
Analysis of Gray Iron Cylinders and Pistons 95
Analysis of the Last Part of a Basic Open-Hearth Heat 33
Annealing Furnaces, Malleable, Application of Pyrometers to 58
Arcade Mfg. Co., Description of Jolt Ramming Machine for Molding Large Boring Mill Column 277
Arcade Mfg. Co., Squeezer Type Molding Machine 186

B

Basement Storage System, A Novel..... 35
Bath Tub Foundry, Sand Blast Equipment 264
Bath Tub Molding Machines 10
Bath Tub Rim Grinding Machine..... 264
Bearing Metals, Method of Melting..... 77
Bearing Metals, Mixtures for 274
Bearing Mixtures 209
Bilz Sand Mixer and Sifting Machine.... 42
Blower, Cupola, Electrically-Driven..... 140
Blowers, Steel Pressure, for Cupola Service, Capacity Table of. Data Sheet No. 58, January, 1910.
Blowers, Turbine-Driven, Gas and Cupola 282
Blow-Holes in Castings Containing Chills. 180
Blow-Torch, the Volcano 284
Borings and Turnings, New Method of Melting in the Cupola 235
Brass Castings,. Cause of Scaling of..... 209
Brass Castings, Dry Sand Facing for.... 274
Brass Founders, Helpful Hints for..... 217
Brass, Malleable, Mixtures for..... 16
Brass, Method of Casting, Against Steel. 115
Brass Mixtures, Diagrammatically Expressed 270
Brass, Use of Mica in..... 16
Brass Valve and Injector Mixtures From an Old Memorandum Book 158
Brass, Weights and Costs of, From an Old Memorandum Book 57
Bristol Co., Electric Pyrometer..... 40
British Foundrymen's Association..... 161
British Foundrymen's Association, Convention Report 1
British Foundrymen's Winter Program... 133
Bronze, Hard, Mixture 219
Bronze, White, Ornamental Castings..... 191
Brown Specialty Machinery Co., Tod Clamp 139
Brush, Casting, the Shanafelt..... 283
Burners, Oil, Lighting Cupolas with..... 263
Burning-Out the Cupola Lining..... 9

C

Cannon, Method of Casting, in the Reign of Louis XV 162
Capacity Table of Steel Pressure Blowers for Cupola Service. Data Sheet No. 58, January, 1910.
Carborundum Products for Foundry Use.. 171
Cast Iron, Effect of Structure of, Upon Physical Properties 21
Cast Iron, Effect of Superheated Steam on Strength of 200
Cast Iron Fittings for Superheated Steam. 196
Cast Iron Flask for Molding Ornamental Lamp Posts 275
Cast Iron, Growth of Investigation..... 113
Cast Iron Sanitary Ware, Enameled—IV. 10
Cast Iron Sanitary Ware, Enameled—V.. 51
Cast Iron Sanitary Ware, Enameled—VI. 116
Cast Iron Sanitary Ware, Enamelled—VII. 166
Cast Iron Sanitary Ware, Enameled—VIII. 202
Cast Iron Sanitary Ware, Enameled—IX. 264
Cast Iron Soil Pipe Fittings Cast in Permanent Molds 237
Cast Iron Test Bars, A Report on..... 127
Cast Iron, Tests of..... 134
Cast Iron, Twenty-five Years of..... 17
Cast Iron Valves and Fittings for Superheated Steam 198
Cast Steel Tensile Test Bars, Influence of Form and Position on..... 55
Casting Brass Against Steel..... 115
Castings, Brass, Dry Sand Facing for.... 274
Casting Cannon in the Reign of Louis XV. 162
Castings, Aluminum, Molding Sand for.. 37
Castings, Die-Molded 277
Castings, Gray Iron, for Automobiles..... 95
Castings, Gray Iron, Hints on the Prevention of Defects in..... 139
Castings, Iron, Formulas for Finding the Weights of 151
Castings, Iron, Formulas for Finding Weights of. Data Sheets Nos. 55 and 56, December, 1909.
Castings, Large Gray Iron, Methods of Molding 45
Castings, Motor Car, Machine-Molded.... 214
Castings, Ornamental White Bronze..... 191
Castings, Sand-Burnt 161
Cavite Navy Yard, Tropenas Steel Plant for 27
Centigrade to Fahrenheit, Table of Equivalent Temperatures. Data Sheets Nos. 53 and 54, November, 1909.
Chain Block, A 40-Ton..... 91
Charging Floor Labor Per Ton of Iron Melted 107
Chills the Cause of Blow-Holes in Castings 180
Chloride of Calcium, Use of..... 218
Cinder Crusher, The Improved Hill..... 92
Clamp, The Tod 139
Cleveland Drop Plate and Stripping Plate Molding Machine 279
Coke Production in 1908..... 85
Conservation of Non-Ferrous Metals..... 90
Continuous Annealing and Hardening Furnace 89
Convention of the British Foundrymen's Association 1
Co-operative Course for Shop Apprentices. 206
Copper and Lead, Production of, in the United States in 1908..... 65
Copper, Effect of, in Solder Mixtures.... 120
Copper, Iron in 20
Copper, Scrap, Value of..... 156
Core Box System, A Practical..... 30
Core Problem in the Foundry..... 210
Core Oven, Monarch Portable..... 187
Core Wire Straightening Machine..... 42
Cores, Cast Iron, in Permanent Molds.... 237
Cores, Covering, Use of in the Foundry.. 210
Cores, Ingot Mold, Machine-Molded..... 92
Corrosion of Permanent Mold Castings.. 237
Cost System, A Simple Foundry..... 68
Costs, Foundry 152
Costs, Shop, and Works Management.... 259
Crandall, L. A., Sketch of Career..... 135
Crucible Problem in the Steel Foundry... 228
Crucible Steel Casting Practice..... 143
Crusher, Cinder, An Improved..... 92
Cupolas, Graphite Blocks for 249
Cupolas, Lighting with Oil Burners..... 263
Cupola Lining, How to Prevent Burning Out Prematurely 9
Cupola Melting Difficulties 126
Cupolas, Method of Lighting, With Oil Burners 228
Cupola Operation, Economy in..... 24
Cupola Slag, Composition of..... 180
Cupola, Small, Operation of 263
Cylinders and Pistons, Gray Iron, Analysis of 95
Cylinders, Automobile, Record Output of. 187

D

Davis-Bournonville Co., Description of Oxy-Acetylene Welding Process..... 176
Defects in Iron Castings, Hints on the Prevention of 139
Denny, Edward J., Death of..... 183
Diameters of Exhaust Fan Inlets for Tumbling Barrels; Data Sheet No. 59, February, 1910.
Diagrams of Mixtures for the Brass Foundryman 270
Die-Molded Castings, Mixtures for..... 277
Distribution of Foundry Tonnage Burdens. 48
Dry Sand Facing for Brass Castings 274
Dudley, Dr. Chas. B., Death of..... 227

E

Eastern Machinery Co., The Improved Hill Cinder Crusher..... 92
Economy in Cupola Operation..... 24
Effect of Structure of Cast Iron Upon Its Physical Properties..... 21
Effect of Superheated Steam on Strength of Cast Iron, Gun Iron and Steel..... 200
Elements of Pattern Construction—I..... 123
Elements of Pattern Construction—II.... 222
Enameled Cast Iron Sanitary Ware—IV.. 10
Enameled Cast Iron Sanitary Ware—V... 51
Enameled Cast Iron Sanitary Ware—VI.. 116
Enameled Cast Iron Sanitary Ware—VII. 166
Enameled Cast Iron Sanitary Ware—VIII 202
Enameled Cast Iron Sanitary Ware—IX.. 264
Estimating Form for Jobbing Foundries.. 262
European and American Foundries Compared 73
European Molding Machine Practice 250
Exposition, Alaska-Yukon-Pacific, Foundry Day at 85

F

Facing, Dry Sand, for Brass Castings.... 274
Fahrenheit to Centigrade, Table of Equivalent Temperatures. Data Sheets Nos. 53 and 54, November, 1909.
Ferracute Machine Co., Sprue Cutting Press 187
Ferro-Manganese, Ground 42
Ferro-Phosphorus, Ground, for Foundry Use 138
Ferro-Silicon, Ground 42
Fittings, Cast Iron, for Superheated Steam 196
Flask, Cast Iron, for Molding Ornamental Lamp Posts 275
Flask Equipment, Interchangeable..... 106
Flask, Snap, The Tapering..... 83
Flux, An Aluminum 133
Forging Machine Frame Pattern..... 78
Form, Estimating, for Jobbing Foundries. 262
Formulas for Finding the Weight of Iron Castings 151
Formulas for Finding the Weights of Iron Castings. Data Sheets Nos. 55 and 56, December, 1909.
Foundries, European and American, Compared 73
Foundry, A Floating 160
Foundry and Manufacturers' Supply Association Meeting 112
Foundry, Bath Tub, General Arrangement of 51
Foundry Costs 152
Foundry Day at the Alaska-Yukon-Pacific Exposition 85
Foundry, Description of, on U. S. S. Vermont 160
Foundry Equipment Exhibit, Alaska-Yukon-Pacific Exposition 29
Foundry Practice Course, Sydney Technical College 108
Foundry, The, As Seen by the Engineer.. 220
Foundry Tonnage Burdens, Distribution of 48
Foundry Trade in Retrospect..... 226
Foundry Work, The Application of Rule-of-Thumb Methods and Science in..... 31
Foundrymen's Convention 183
Foundrymen's Convention in 1911, Preparations for 227
French Foundrymen's Association..... 131
Furnace, Continuous Annealing and Hardening 89
Furnace, Crucible Steel Melting..... 143
Furnace, Malleable Annealing 43
Furnaces, Malleable Annealing, Application of Pyrometry to 58
Furnace, Stationary Crucible Melting..... 188
Furnace, Tilting Crucible 88

G

Gear Wheel Molds, Methods of Patching. 27
Gears, Simple Device for Making, With a Segment Pattern 146
General Industrial Notes.44, 94, 142, 189, 236. 285
German and French Associations of Foundrymen 20
German Foundry Foremen's Association.. 174
German Foundrymen's Association, Report of Dresden Convention..... 172
Graphite Blocks for Cupolas 249
Gray Iron Castings for Automobiles..... 95
Gray Iron for Piston Rings, Analysis of. 95
Gray Iron Foundry, A Permanent Mold.. 237
Gray Iron Ornamental Lamp Posts, Methods of Molding 66
Gregg Mfg. Co., Core Wire Straightening Machine 42
Grinder, Swinging Motor-Driven..... 234
Grinding Machine, Bath Tub Rim..... 264
Gun Iron, Effect of Superheated Steam on Strength of 200

Index to Volume XXXV

September 1909 --- February 1910

A

Accidents, Prevention of, Industrial..... 212
Alaska-Yukon-Pacific Exposition, Foundry Equipment Exhibit 29
Albany Sand & Supply Co..... 235
Alloys, Aluminum-Zinc, Tensile Strength of 268
Alloys, Nickel, Methods of Melting..... 39
Aluminum Castings Co..... 44
Aluminum Castings, Molding Sand for.... 37
Aluminum Co. of America..... 234
Aluminum Foundries, Consolidation of... 44
Aluminum Flux 133

Data Sheets

Volume XXXV

Nos. 49-50, September, 1909.—Standard Specifications for Buying Foundry Pig Iron.

No. 51, October, 1909.—Rules for obtaining Surface Speeds of Wheels, and for Calculating Speeds and Diameters of Pulleys.

No. 52, October, 1909.—Table of Grinding Wheel Speeds.

Nos. 53 and 54, November, 1909.—Table of Equivalent Temperatures, Centigrade to Fahrenheit.

Nos. 55 and 56, December, 1909.—Formulas for Finding the Weights of Iron Castings.

No. 57, January, 1910.—Sizes of Pipes for Forges and Furnaces.

No. 58, January, 1910.—Capacity Table of Steel Pressure Blowers for Cupola Service.

No. 59. February, 1910.—Diameter of Exhaust Fan Inlets for Tumbling Barrels.

No. 59, February, 1910.—Sizes of Pipes for Tumbling Barrels.

No. 60, February, 1910.—Standard Section-Lining for Mechanical Drawings.
